Committed to Growing Young Hearts and Minds

October 26, 2012

Dear Parents of Grades 5-8 Students:

So What is the Problem with Kids and Social Networking? Why all the hoopla?

It is simple: kids are revealing to the rest of the world information that is inappropriate and too personal, especially information that can make it easy for a predator to identify, track and lure the youngster. They are regularly revealing everything from where they attend school to where they live, work, play, hang out and study. Many also include photos of themselves and their friends taken in their home or in their rooms.

To educate and make our students and parents aware of these issues, Saint James School will present a Special Presentation on Social Networking on Wednesday, November 7, at 12:45 P.M. in the gym. Presenters will be Connecticut State Troopers from the Computer Crimes and Electronic Evidence Unit. Students in Grades 5-8 will attend this presentation and all parents are invited to attend. Please complete the form below if you plan to attend and return it to the School Office.

Thank you,
Patricia A. Kanute
Principal

I will attend the Social Networking Presentation on November 7, 2012.
